Summary

Motivated B.Tech CSE-AI&DS student with strong foundations in programming, software development, and data structures. Skilled in Java, Python, and web development technologies, with hands-on project experience in building real-world applications. Quick learner, effective team player, and passionate about AI, Web Development, and Data Analytics, seeking opportunities to contribute innovative and scalable solutions in the tech industry.

Education

B.Tech in CSE - AI&DS , Greater Noida Institute of Technology <i>Currently Pursuing</i>	July 2022 – June 2026
Senior Secondary (XII) , The S.D Vidya School	2022
Secondary (X) , The S.D Vidya School	2020

Projects

College Complaint/Feedback System [GitHub](#)

- Developed a dynamic web app using HTML, CSS, JavaScript, PHP, and MySQL for handling college complaints and feedback.
- Created student-facing submission forms and an admin dashboard for viewing, filtering, and resolving complaints.
- Ensured efficient user management and data tracking with login-based session handling.
- Focused on real-world deployment features such as automated timestamps and status flags.

Bill Generator [GitHub](#)

- Built a responsive and interactive invoice generator using HTML, CSS, and JavaScript.
- Enabled users to dynamically add items, auto-calculate totals and taxes, and generate printable invoices.
- Applied clean UI principles with validation and error handling for user-friendly experience.
- Useful for freelancers and small businesses requiring quick and elegant billing tools.

Personal Portfolio Website [GitHub](#)

- Designed a modern personal portfolio to showcase skills, education, certifications, and projects.
- Implemented responsive layout compatible with mobile and desktop using HTML, CSS, and JavaScript.
- Integrated GitHub and LinkedIn profiles for professional reach and credibility.
- Deployed the site as a digital resume with clean navigation and polished presentation.
